## EDUCATION

**University of California, Merced, B.S. in Computer Science & Engineering** August 2021 - July 2025  
**Relevant Coursework:** Algorithm Design & Analysis, Artificial Intelligence, Computer Organization & Assembly Language, Data Structures, Full Stack Web Development, Object-Oriented Programming, Operating Systems, Software Engineering

## WORK EXPERIENCE

**Office of Student Involvement at University of California, Merced** Merced, CA  
*Marketing, Assessment, Website, and Data Lead* August 2022 - July 2025

- **Increased social media engagement metrics by 20%** by executing a weekly marketing calendar of creative posts and reels across platforms such as Instagram and official UC Merced websites using **AI-assisted design tools, Canva, Illustrator, and Lightroom**.
- Analyzed campus event data by creating surveys and mass emailing them to students using **Qualtrics XM, Python (pandas), Outlook, and SocialPilot** to improve campus events and marketing strategies.
- **Grew website traffic by 25%** end of year by maintaining and optimizing the Office of Student Involvement website using **HTML/CSS and Drupal**, enhancing its usability for UC Merced students.

**The Diplomacy Lab at U.S. Department of State** Remote  
*Software Engineer Intern* August 2024 – December 2024

- Enabled seamless scheduling of language assessments for diplomats by developing the Progress Assessment Scheduling Calendar app for the U.S. Department of State's Diplomacy Lab, improving efficiency for Learning Training Specialists during 24-week language courses using **React.js, Flask Python, and PostgreSQL**.
- **Improved task efficiency by over 30%** by designing and implementing front-end features using **Figma and React.js**, including optimized UI/UX layouts, accessible color schemes, and strategically placed calendars and action buttons.
- Documented all features so that it could be deployed for use using **GitHub** (private repository) for scalable adoption.

**Calvin E. Bright Success Center at University of California, Merced** Remote  
*Frontend Developer Intern* May 2024 – August 2024

- **Improved user experience and increased website traffic by 15%** by redesigning and developing the Bright Success Center website with a modern, accessible, and visually appealing interface using **HTML/CSS and Drupal**.
- **Achieved over 95% satisfaction from program leaders and students** by collaborating with 10 campus programs to implement innovative design features and enhance the pages for each program.
- **Expanded Bright Success Center's outreach to 1,000+ new users** by leading new marketing projects, managing timelines and deliverables, and conducting market research to inform future content decisions using **Canva, Illustrator, and Lightroom**.

## LEADERSHIP EXPERIENCE

**Alpha Kappa Psi Professional Business Fraternity - Psi Upsilon Chapter** Merced, CA  
*Vice President of External Affairs, Historian, New Member Educator* February 2023 – May 2025

- Created networking opportunities for chapter members and affiliates by organizing social events that developed new bonds with other organizations and other chapters of Alpha Kappa Psi around California.
- Led a 7-week professional development program for 16 new members by creating professional development workshops resulting in their successful integration into the fraternity.

**ASUCM Campus Activities Board** Merced, CA  
*Website Developer* August 2021 – May 2025

- Elevated CAB's digital presence by developing its official website using **HTML/CSS and Wix**.
- Strengthened CAB's brand identity by directing photoshoots for members and events used for promotional purposes.

## PROJECTS

**Paws for a Cause 2024 & 2025 Websites** | <https://akpsipawsforacause.com/> React.js | CSS | GitHub Pages

- **Raised over \$17,500 and attracted 500+ unique visitors** by developing a fully custom website using **React.js** for Alpha Kappa Psi's annual "Paws for a Cause" philanthropy week in 2024 and 2025.

**Scheduling Progress Assessments App** React.js | CSS | Flask Python | PostgreSQL | Electron | Vite

- **Improved scheduling efficiency for U.S. diplomats by 30%** with a 5-person team to replace Excel workflows with an application using **React.js, Flask Python, and PostgreSQL** automating bookings, email confirmations, and progress tracking.

## TECHNICAL SKILLS
